

# GALAXY BEW

Choice of Application & Resolution

The world is huge, and I can fly with you.

The UV printing technology can print on various objects with designated properties of ink. Many printing jobs can be done by UV printer instead of traditional method, such as screen printing, which is complicated and time consuming. The new application of printing color, white and color brings many possible jobs, such as transparent film, sandwiches printout, etc.

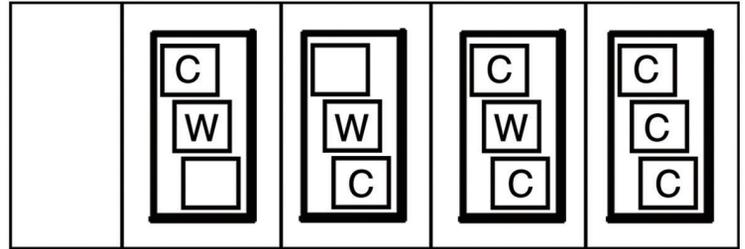

# Specification

Model	BEW
